DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-22 and 41-49, drawn to content distribution, classified in class 726, subclass 143.
 - II. Claims 60-87, drawn to protecting content, classified in class 705, subclass 51.
2. The inventions are distinct, each from the other because of the following reasons: Inventions I-II are related subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as video on demand. Invention II has separate utility such as digital rights management.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art due to their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
